

February 9, 2012

All my life I have been so sure that by now, I would know exactly what I want to do, but I was wrong. I know the exact opposite. I have been through all my options countless of times. There are so many careers and jobs to choose from, but I am just not sure what sounds right for me. The only thing I am positive about is that I am going to college no matter what. The advantage of my situation right now is that I am open for all kinds of options and pathways to guide me on my way to being a successful person. Of all my options Northern Michigan University is the right choice for me.

NMU is the right college choice for me because they have so many things to offer an undecided person like me. NMU has a business program that I am interested in. I have heard so many positive things and awesome experiences from people who have attended NMU and also, people who have gone through the business program. Not many students who graduate from my high school attend Northern, but everyone who has gone there that I have talked to has had a wonderful experience with the staff and teachers. What really made up my mind about NMU was a college representative that came to my high school to inform us about what Northern has to offer. The rep went over and hit all the points I was concerned about with going to college.

The one thing I love about NMU is the tuition price. Since I am not totally sure about my career choice, I don't want to get stuck paying thousands of dollars for something I may not continue with in the future. NMU has a great price for in-state graduates per year.

I also like that class sizes are like an average high school class size. Smaller class sizes means that you are able to have more one on one time with your professors. I have been on the Northern campus only a few times, but it has a friendly atmosphere. Northern has a lot to offer me, as an individual and I have a better chance of becoming a successful person like I have always dreamed.

Northern Michigan University should choose to make me an addition to their student population. I am not only a straight A student, I am active with out of school clubs and organizations, and I am an athletic person. A major achievement of mine in high school so far is joining The National Honor Society. Only a select few get asked to join. Grades along with being a hardworking student will get you accepted. I try to be a part of as many committees as possible like prom, yearbook and student council. I am a very hardworking and a dependable person. I also have been playing sports my whole life and would love to be a Jayhawk.

Thank you for your time and consideration.

Sincerely,

Haley Knight
