

My name is Meaghan Braspeninx. I am a junior at Oakridge High School. I participate in Softball, Yearbook Committee, Student Council, and the Prom Committee. I am a very nice and driven person with a positive attitude. I always try my best in school. My favorite subject in school has always been History. After high school I plan on going to a four year University but I'm not sure which one yet. I plan on earning at least a Masters degree in Social Work. Then go on to get a Social Working job in the medical field.

I'm planning to go on a trip to Selma Alabama, in March of 2013. This trip is really important to me and it gives me the opportunity to experience history. The Civil Rights Movement was an important event in history that changed how things are today. By going on this trip I would get involved and be a part of something that was so important and influential to American History. On this trip I will also get to experience what people really went through down in the South during those rough times. We have an obligation to the past, present, and future generations and we need to get involved. That is why I would love to go on the trip to Selma Alabama.

The total cost of the trip will be \$655. Any contribution you can make will be greatly appreciated. I will be more than happy to share my experiences and pictures with you upon my return. Thank you so much! ☺
