

Hi, My name is Jenny Craine and I am currently a freshman at Oakridge High School. I really enjoy being around other people, performing, listening to music, and traveling. After graduation I plan on attending GVSU for a Bachelor of Social Work. One I can become a social worker for those who are in need.

D.C. Neighborhoods

I believe that going on Close Up will be one the best opportunities of my life. Leaving my home town and going across the country to Washington D.C to experience and learn the things us kids only hear about in the comfort of our desks, will be fascinating. I will be taking a tour of the all of the monuments and hearing about their meanings. My school will be going to D.C a day early, and we are going to be working at the world's largest homeless shelter (D.C. Kitchen), cooking and just talking to the people that come through there. We will have time to leave the close up group and just go through the town like we live there. Being in Washington is going to be amazing, seeing the things you cant see in Muskegon. We will participate in debates firsthand, and seeing the diversity of people. I am most excited to meet the people, and make memories.
