

Exploring Africa

“Digging deeper”

Timelines are up! You've done a great job!

Now let's dig a little deeper. Together we will choose three of your timeline features to highlight. Ideally, you choose two and me one. In the end we will agree on the topics for further research. Then you will dig in and study these issues more closely. After researching the chosen topics you will be required to write up a two page study of each. We will back to back it and hang it at the appropriate stage of your fishline timeline. Students in my other classes are already learning about Africa through your efforts, spurred to look skyward due to the the boring monotonous tone of my voice.

Now give them something even more interesting to
READ ABOUT!

REQUIREMENTS:

1 - CHOOSE THREE

This I think we have done...if you are not satisfied with your “our” choices. Let me know, we can shift gears and go in a different direction. However talk to me soon!

2 - FURTHER RESEARCH - AT LEAST THREE SOURCES

We will continue to take on variable topics in ANW throughout the final two marking periods. Concurrently I expect that you will begin working on your Digging Deeper projects at the same time. All three must be up and hanging when I return from Close Up (no exceptions and not to be hung the day I return); we will do the presentations after Close Up.

3 - FINAL PRODUCT GUIDELINES

Each of the three surveys must follow the guidelines listed below:

- 1 - the survey needs to be limited to two pages - since it will hang back to back from the timeline.
- 2 - It must be written in your own words!
- 3 - we decided on a 20 pt font so it can be read easily from below. use 1/2 inch margins.
- 4 - title each of the three surveys.
- 5 - place a footer with page one and page two - so readers will know where to start.
- 6 - choose a color that works with your timeline.
- 7 - Change your original hanging above to a large inviting photo and heading.

4 - SOME SUGGESTIONS

I know in two pages at a large font that you cannot tell the whole story Try to do your best to make your prose interesting enough, and factual, that you can hook the reader into thinking a little deeper about your subject and your country.

Make sure that the essay is in your words. One because I'll grade it down if it is not. Two because many of the people trying to stay awake below your hanging - will give up on the hard words. Three, because you are going to have to eventually present the hanging in your own words - and if you don't know what you are talking about it will be painfully obvious.

5 - BIBLIOGRAPHY

Three sources minimum per each Digging Deeper. As you create each compose a bibliography to Google Docs complete with links. Type the name of the article and the source of the article and date of the article for each creation. Add the link to the listing. Upon completion of your hangings email me the Google Docs bibliography in the following form.

Digging Deeper #1 - Title of Slide

Name of article

Source of article

Date of article.

Link #1 for slide #1.

Name of article

Source of article

Date of article.

Link #2 for slide #1.

Name of article

Source of article

Date of article.

Link #3 for slide #1.

Repeat above for slide #2 and slide #3.

Google docs the sources to Mr.Wood and hang the slides by Thursday May 15, 2014
