### Q3 If we did concentrate on the Environment what issues would you like to study? Explain - tell me what and why...please be detailed.

Answered: 27 Skipped: 0

#	Responses	Date
1	I would like to spend a lot of time on the amount of transportation that we use. Maybe start as small as getting a bus ride to CTC to getting more transportation and bus stops in the Muskegon area. We emit a lot of exhaust into the environment and its not ok. I would also like to see more recycling in the class rooms and especially in the cafeteria. And I like the idea of using less plastic. Less plastic bags, less Styrofoam plates, and anything else we can think of.	9/23/2014 12:34 PM
2	The politics that block environment-saving public policy from taking off.	9/23/2014 8:58 AM
3	I want to know what we can do as one person and what people are doing to make a bigger change. I just want to make a differences and I need knowledge before I can act.	9/23/2014 8:57 AM
4	I would like to study pollution. I would like to study the main causes and effects and what we can do to help become more green.	9/23/2014 8:56 AM
5	i would like to study the issue of oil spills and oil drilling.	9/23/2014 8:54 AM
6	I think that the environment thing would be a good thing to do, but I don't know if we should be doing it intensely. Maybe it would be cool if we went out after school and planted trees and shiz for extra credit.	9/23/2014 8:54 AM
7	Why we don't consider switching to solar power.	9/23/2014 8:53 AM
8	I really don't care what environmental issues we talk or do something about in class.	9/23/2014 8:52 AM
9	What year would the glacier caps melt since global warming is rising the temp every 4 degrees.	9/23/2014 8:52 AM
10	Pollution and the cutting down of the rainforests.	9/23/2014 8:51 AM
11	I would study pollution going into the great lakes. Around Michigan, I feel that is the biggest issue around the place I live.	9/23/2014 8:51 AM
12	I would like to study what goes on in the environment.	9/23/2014 8:50 AM
13	The effect it has on the planet and how we think about it. I mean, some religious people think that global warming is all a part of God's plan. Some others are sure that we are to blame. I think the only way to solve this problem is by mixing these two and find a way to make people understand that we need to change our way of living, not only for the earth but for us.	9/23/2014 8:48 AM
14	Local. Learn the big things, but in the end apply it to our own community. Things like watching our waste, global warming, and what is happening to the physical environment.	9/22/2014 11:14 PM
15	Just global warning in general	9/22/2014 10:53 PM
16	I think the climate change is an important issue! If we don't change it it will get a big problem and our children's will have big problems wit the live on this world. We need to look for the world and don't destroy it. We should look how we can improve it. And we should start to recycle more specify here in america and in the school. We should talk about the gases and how we can live maybe without cars or with better engery like from wind or the sun.	9/22/2014 10:26 PM
17	I would like to study about our mass consumption society. I mean that we produce, buy and trash so much stuff but there are still so many people who are hungry. I want to study about this issue because I think if every person in the world would just buy what they need or the half of their usual buying, it would change a lot. In addition I would like to know how it would be if the companies would stop to overproduce. Finally we have to live with all the trash.	9/22/2014 9:53 PM
18	in the large city issues (all the fog and the air in big cities) because I think it is huge problem. Cars; why we use cars so much and destroy our air.	9/22/2014 9:22 PM

19	Recycling because how do we really know that the things are being recycled and we aren't just spending extra money?	9/22/2014 9:05 PM
20	I would like to spend on fracking because I want to know what the effects are. That can this cause environmental damage and could it harm humans.	9/22/2014 8:47 PM
21	Climate change. It seems to be the biggest issue with our environment. I think it would be cool to learn how to help deal with it.	9/22/2014 8:33 PM
22	We can talk about the plastic consumption in America . We can complain it with other countries because my first experience in a supermarket was so bad! So many plastic bags for so less things... In Germany we use more recycled bags and no plastics bags and also not one plastic bag for one thing. Or we can speak in general about plastic in America	9/22/2014 6:41 PM
23	Garbage, water pollution, air pollution, CO2 storage - I think we should divide into groups and focus onto the topics we want - and make a project out of it. Actively do something about it and maybe write an essay or whatever you call it about it. I really want to focus on DOING something rather than only discuss it. Because we discuss a lot in class, but we also say a lot that people have to wake up and do something about it - and so should we!	9/22/2014 6:16 PM
24	I don't want to study enviroment. At all. We need to work on college based things while we are at that time & place of our lives.	9/22/2014 6:04 PM
25	To be honest, I do not want to talk about the enviornment in class. I do realize that it is a major issue and I do feel we should do something about it, but I already have a class that is completely constructed of curriculum focused on the enviornment and I would hate to have 1st and 2nd hour be about the same topic.	9/22/2014 5:48 PM
26	I would like to study possible ways of going green on the school level	9/22/2014 5:04 PM
27	I think we should study how to offset carbon emissions. And I think we should start a greenhouse and address the recycling problem at oakridge. We should also get rid of styrofoam	9/22/2014 4:38 PM

**Q4 If we did get actively involved in projects or campaigns regarding the environment what projects or campaigns would you like to be involved with? Please be detailed in your answer.**

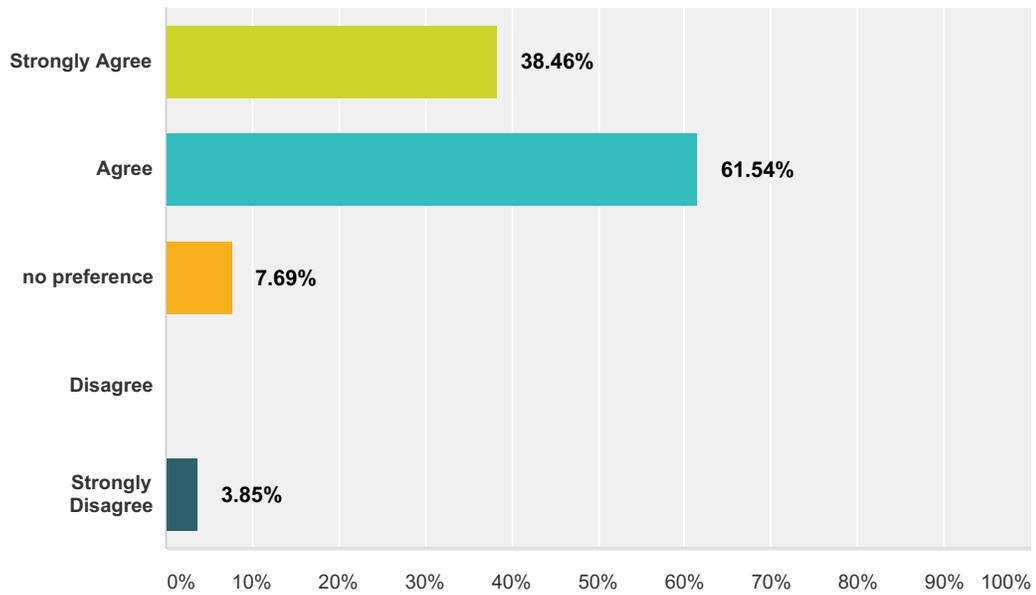

Answered: 24 Skipped: 3

#	Responses	Date
1	I would definitely get involved in more transportation because not only does it take away from pollution in the air, it would bring more chances for people to get to things like school and work. It would be a win-win for everything. I also feel like the less plastic and more recycling in the school would be an easy thing to wrap around and get some cooperation with that.	9/23/2014 12:34 PM
2	We could pick up trash around the school or try to get rid of the polystyrene trays in the cafeteria.	9/23/2014 8:58 AM
3	I want to change something with the school! We need so much change around here. I feel like the school is the same image as our government. I feel like if we could make a change then the kids before us will be willing to do it as well.	9/23/2014 8:57 AM
4	I would like to go pick up trash as a class or get a good recycling program going throughout the school and getting a recycling bin in the copy room.	9/23/2014 8:56 AM
5	yes i would i would like to take part in anything to help the enviornment	9/23/2014 8:54 AM
6	I will protest, and volunteer my time. Anything. Lets change the world.	9/23/2014 8:53 AM
7	I would not mind doing any of them i am open for all	9/23/2014 8:52 AM
8	Recycling since many don't do it and I would love to try to get as many people to start so there won't be much landfill than we do now.	9/23/2014 8:52 AM
9	I don't know any names for projects or campaigns.	9/23/2014 8:51 AM
10	I would like to be involved with building things. Also, I would call people and try to get them to make a change and see my point of view.	9/23/2014 8:51 AM
11	Yes, I would be more than happy to do something about it instead of just talking about it. You talk about how we're supposed to do something instead of just talking, well let's do something.	9/23/2014 8:48 AM
12	We could due countless things. Somethings I am interested in are, protesting events that we don't agree with, protesting to raise awareness, contacting local government or event federal government, and changing things in our community to better the environment.	9/22/2014 11:14 PM
13	I'd have to research more to know what we could do	9/22/2014 10:53 PM
14	I want to improve the recycling and to look for our ressouruces. We should use them in this way that our children and grandchildren can use them too. I think recycling is very easy and all of us should do it because it isn't a big deal. In america the plastic seems for me too much. For example in the grocery stores.	9/22/2014 10:26 PM
15	I would like to be involved in projects or campaigns about mass transit who want to find a better way to travel without cars. For example: walking, using a bike or puplic transportation.	9/22/2014 9:53 PM
16	How to change environment better or pros and cons about environment	9/22/2014 9:22 PM
17	id like to be involved in just about anything, but i just don't have the time.	9/22/2014 9:05 PM
18	We could provide information to the public about these environmental problems.	9/22/2014 8:47 PM
19	Environmental degradation or global warming campaigns	9/22/2014 8:33 PM
20	We can make a project to the topic plastic. I think the most people don't know what happend with the garbage after you put it in the bin... One the street are also a lot of plastic and plastic need more then 1000 year to recycle..that's is a long long time.. :(	9/22/2014 6:41 PM

21	I want to change people's minds around here about using all those unnecessary plastic bags. E.g. at Meijers or Walmart - something has to happen. We need to do something about it. If Meijers and Walmart won't change it on our demand, we have to reach out to the customers.	9/22/2014 6:16 PM
22	Maybe,	9/22/2014 6:04 PM
23	Same answer as 3.	9/22/2014 5:48 PM
24	Community clean ups and partnering with other schools	9/22/2014 5:04 PM

#	Responses	Date
1	I would totally do a hunger strike to get people to move on this. We could hold up signs that say, "Going on Hunger Strike Because we're already Starving Students." That'd be fun. I'd go to meetings and call the representatives and anyone else that deals with that. We just need to get it out that these prices aren't going any lower. I think we should do it just like the people in New York did.	9/23/2014 12:34 PM
2	I don't know any campaigns.	9/23/2014 8:58 AM
3	I want to go to people who are willing to listen and ask the hard questions. If I can do that maybe it will stick into their head and make them finally feel responsible to take action.	9/23/2014 8:57 AM
4	I would do anything when it comes to college costs. Protests would be cool, anything that gets my voice heard would be something that I would like to do.	9/23/2014 8:56 AM
5	any and every one i am very into helping the enviornment.	9/23/2014 8:54 AM
6	I think it would help because then we could fill out scholarships and figure out a better way to pay for our college.	9/23/2014 8:54 AM
7	Anything. We NEED to fix the broken system.	9/23/2014 8:53 AM
8	I would love to do all of them	9/23/2014 8:52 AM
9	I'm not really sure because all I want is to find a great college with not a whole lot of money.	9/23/2014 8:52 AM
10	I'm not very sure since I don't know any names of projects.	9/23/2014 8:51 AM
11	College is important. It does not matter to me as much as it matters to some, because I choose different pathways for my future.	9/23/2014 8:51 AM
12	Definitely. These costs for education are insane. I mean, there are so many countries n this world where you pay less, get education for free, or even get payed for it. We need to do something about it.	9/23/2014 8:48 AM
13	We could do protests to raise awareness. I feel as though we are more limited with things to do than compared to the environment.	9/22/2014 11:14 PM
14	I don't know very much about the costs and the issue of the education in america. But I think education shouldn't cost as much as it cost here. Too much money is used for things they don't need. Like the screens in football arenas. We should make the people intereset and awake about that issue that for example the education in other countrys is cheaper. And that it needs to change in america.	9/22/2014 10:26 PM
15	I don't know but I would try to get more information how other countries handle the cost of education.	9/22/2014 9:53 PM
16	Why the college costs are so high and what includes to college cost. because I think it is ridiculously expensive so I want to research about that.	9/22/2014 9:22 PM
17	I would like to be involved in trying to bring the costs down.	9/22/2014 9:05 PM
18	Go on a march with signs letting people know and learn what they don't know.	9/22/2014 8:33 PM
19	I would talk to so many people and say to them go on the street and fight for your education because every person has the right to go to school and go to college.You need education for your whole life... We can make flyer and show them that we want to change something!!! We need people they make a start for a big change in your country...!!	9/22/2014 6:41 PM
20	maybe do survey's, research some facts and figures and knock on the doors in Lansing. That's the place that can change something. We can't really start a demonstration with 20 people, but something in that direction maybe?	9/22/2014 6:16 PM

21	Yes i want to be extremely involved in this, this is a seriously issue today and needs to be addressed right away!	9/22/2014 6:04 PM
22	Well, I'm in this class for a reason, so I do not know of any projects or campaigns regarding the cost of education, but I am willing to do whatever it will take to get the word out and make a difference.	9/22/2014 5:48 PM
23	Going to Lansing and talking to someone in person about the cost of college and what's being done	9/22/2014 5:04 PM

**Q8 What are the top three issues that you want to address in SCI? Please number them one, two, and three.**

**Q9 Why is the United States filled with individuals who will not stand up and fight for causes which have a direct bearing on them, on their families, on their future children, and on the world?**

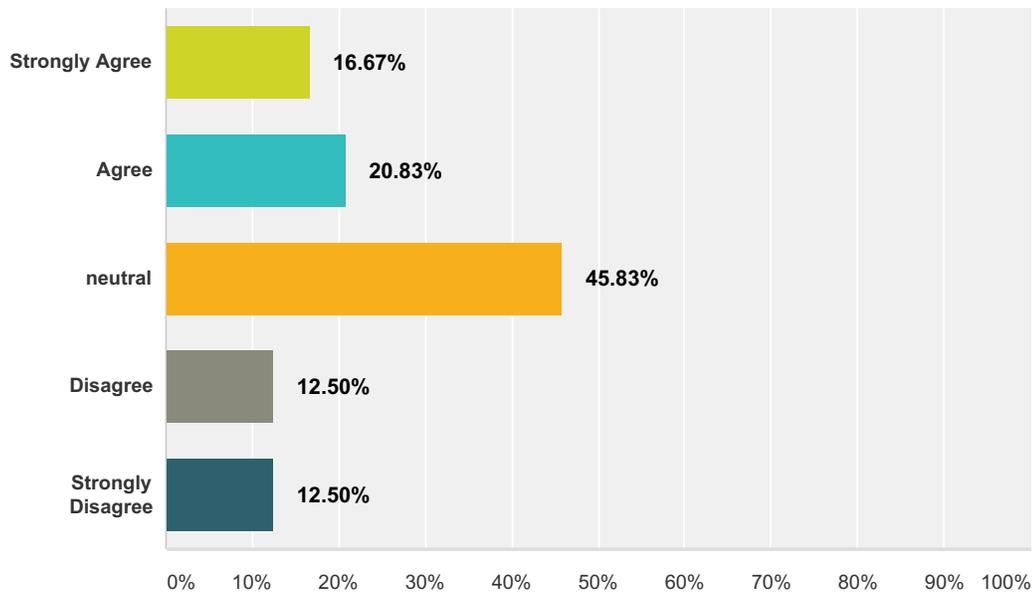

Answered: 24 Skipped: 3

#	Responses	Date
1	I think it's because we've learned that if there's a little problem now, it won't become out of control later. Like people with credit card: they charge a bunch of money before they have the money to pay it off. Maybe it's because we've forgotten that we're sovereign. Maybe because we expect everything to be handed to us. Maybe we're just lazy. We've just grown a habit of waiting until our bellies are hungry to fight for food; our nose is just above the water before we swim; and our priorities are manipulated enough before we start a revolution! It just has to be the people's time again, not the political leaders, our time.	9/23/2014 12:34 PM
2	People are complacent with their lives and it is much easier to ignore issues that don't directly effect them.	9/23/2014 8:58 AM
3	They are not awake, that's all that need to be said.	9/23/2014 8:57 AM
4	We are all bricks in the wall, and just do what we are taught growing up. People today are very selfish and don't care because it doesn't effect them in their lifetime.	9/23/2014 8:56 AM
5	because like everyone else we still care about the world our children grow up with. being engaged i worry about my fiancees and my kids growing up in a dirty polluted world.	9/23/2014 8:54 AM
6	Because we're taught to just look at our phones and close our eyes to what's happening. If something makes us mad, we don't speak out and tell people how we feel, instead we turn to Twitter and type in 140 characters or less how we feel.	9/23/2014 8:54 AM
7	Because Americans faces are kept just above the water. We can live, but not comfortably. Americans don't want to lose the little bit they're getting.	9/23/2014 8:53 AM
8	It requires a lot of work and not many are really want to put the effort in. Its a long progress and America wants results quick than later.	9/23/2014 8:52 AM
9	Because we have become comfortable with the way things are. If things change then it might mean we have to change what we do and America doesn't want that.	9/23/2014 8:51 AM
10	They don't feel strongly enough about the issue. They think they are the only ones feeling that way.	9/23/2014 8:51 AM
11	It can be scary to stand up. Maybe some of them just fear having to realize that we've got a huge problem.	9/23/2014 8:48 AM
12	The people of the United States just don't want to. We see and hear what we want to. We don't want to get involved, because getting involved could be time consuming. That or we just don't care. That we are so ignorant, that we believe these events will have no effect on us.	9/22/2014 11:14 PM
13	I think the reason for that is that there are a lots of people who think " I am one person I cannot change anything, and there are so many other people so they can do it and it doesn't need me to change something." People are lazy and they are selfish and don't think about the future. They only think about the present and what is good now.	9/22/2014 10:26 PM
14	Because NOBODY FEELS RESPONSIBLE. Everybody thinks its the job of the government or whatever but if the people wanna change anything, they could! They are not awake enough, I think I'm also not awake enough. We all thinking what we have so much more things to do that we don't think about the really important things.	9/22/2014 9:53 PM
15	They are too scared to fight. They think that in the US they are safe and living the american dream.	9/22/2014 9:22 PM
16	Many Americans are just too lazy to do anything to help!	9/22/2014 9:05 PM
17	Because there to scared to do change. That we are in a culture that just repeats itself	9/22/2014 8:47 PM
18	I don't believe they know how its really effecting them and their children, they are not awake of the current situation.	9/22/2014 8:33 PM

19	That's a good question... I think most of them don't want to accept that they need help or they want to show it in the public. They say only to himself that is a bad situation and do not more.. Maybe for other people it's not cool to go on the street and fight and there feel shamed... I think also that young people don't see so much people on the street. the young people have no model like a people that make something like fighting for rights!	9/22/2014 6:41 PM
20	I wish I knew. Maybe because it is such a big country that they feel like it's not going to change anything if they stood up. They might feel like they can't motivate a crowd that's big enough to raise awareness or that they can't reach out to people, and then they don't even give it a try. But they're wrong. I mean, come on, we got the Internet, everything's possible with the Internet.	9/22/2014 6:16 PM
21	Because they don't understand to the fullest their rights and they don't know what they can do under any circumstances!	9/22/2014 6:04 PM
22	I think most people do not stand up because they do not know where to begin. I think that they think they need to start big when really we need to start small and gradually get to the big.	9/22/2014 5:48 PM
23	They are asleep	9/22/2014 5:04 PM
24	They are scared and don't believe that they can make a difference or they just don't want to.	9/22/2014 4:38 PM

### Q10 I think Breaking Bad is the greatest single on screen creation of all time.

1	I've only watched until the second episode, and it's just kind of slow right now I guess.	9/23/2014 12:34 PM
2	It's right up there at the top, but Game of Thrones rules all.	9/23/2014 8:58 AM
3	Dumb and Dumber	9/23/2014 8:56 AM
4	cat dog	9/23/2014 8:54 AM
5	Gossip Girl	9/23/2014 8:54 AM
6	I haven't really seen the show at all.	9/23/2014 8:52 AM
7	I've never seen it so I wouldn't be able to answer.	9/23/2014 8:48 AM
8	Breaking Bad is my crack, and I'm addicted. If I could I would watch it everyday forever.	9/22/2014 11:14 PM
9	I never saw it but I'm sure it is good! Or maybe the best!	9/22/2014 10:26 PM
10	I have never seen it but just the fun when you are talking about Breaking Bad makes me to choose "agree".	9/22/2014 9:53 PM

11	I haven't watch it yet. After my a couple shows then I could watch Breaking Bad because I have heard so much good about that.	9/22/2014 9:22 PM
12	Never seen it	9/22/2014 9:05 PM
13	Never have seen it.	9/22/2014 8:33 PM
14	Hahaha - great question. I would answer it if I had watched a single episode.	9/22/2014 6:16 PM
15	I've never watched it so I can't answer this question honestly.	9/22/2014 4:38 PM
